8 March 1960

MEMORANDUM FOR: Special Assistant, RR

THROUGH: Chief, Geographic Research

THROUGH: Chief, Geography Division

SUBJECT: Contact with [REDACTED]

25X1X7

25X1X7 1. In accordance with arrangements made through the office of SA/RR, [REDACTED], visited GG/F on 8 March. The chief purpose of his visit was to call our attention to an article on the recent China-Burma border agreement, contained in [REDACTED] for 25X1X7 19 February 1960, and to solicit any comments we might have concerning it. We indicated that we agreed with the article and considered it to be a good one, but suggested that it might also have pointed out the significance to forthcoming Sino-Indian border negotiations of the Chinese acceptance of the eastern end of the McMahon Line as the traditional northern boundary of Burma.

2. We also indicated to [REDACTED] that, in accordance with 25X1X7 his recent request to Ch/G, a photocopy of the 1957 Chicom-published Atlas of the People's Republic of China is now being reproduced and will be made available to him upon completion of the reproduction.
